nephew. He loves to tell jokes. These are 'clean' and good fun for kids. He enjoys reading them to his younger brother and cousins. As far as the adults go - some of these are pretty lame but keeping in mind the target audience - they're good. 0 of 0 people found the following review helpful. My 8 year old son didnt like it much By Dilafroz We were excited to get our son this book also, who is so much interested on the 1000 jokes for kids (the yellow cover),. But he said, that he simply didn't understand most of the jokes in this book. Which means: it is not "for all ages kids"... may be he will understand them later in a couple of years, but in that case it is not "for all ages kids"... 0 of 0 people found the following review helpful. Just Not Funny By Hal BI was disappointed, and my wife was even more disappointed with this book. In fact, we didn't give it to our seven year old granddaughter. Humor is highly subjective. Because our granddaughter is going through a "tell a joke" stage we tried to put ourselves in her shoes. The jokes are either over her head, or silly. Finding a good joke book for a child is not an easy thing to do. Sorry to say, this one fell flat.
