Each page features a bunch of cats. The cats all have very simple and easy to color silhouettes. These images don't have as much detail as some books have but they work well with colored pencils and markers. The book has single-sided pages and fairly heavy pages. I still put a piece of paper between pages when using markers though. The pages are not perforated but they do tear out easily for those that prefer to color on a clipboard. The book will also lie almost flat if preferred. 6 of 6 people found the following review helpful. Okay, I have to admit - I counted. By Shadowstorms And there really ARE 1001 cats in this book! (It's kind of like when you're looking at the roll of Scott toilet paper, and you wonder...) But far better than mere arithmetical correctness, these cats have style. Savoir faire. Joie de vivre. Dozens of adorable anthropomorphic situations. Love 'em. Really love 'em. I mean - cats in lifeboats. It's like "The Wreck of The Medusa," but cute. You absolutely need

this book. Note: the pages aren't perforated, so if you wanna hang one up, you have to tear it out REALLY CAREFULLY, and the paper is thin-ish, so if you're coloring a page, you should put a couple sheets of blank paper behind it. Much more suited for colored pencils than markers but, geez, cats at the beach. In salad bowls. On the Sistine ceiling. You so totally need this book.3 of 3 people found the following review helpful. ... likes to color so I'm hoping this will be useful therapy for getting back some of her fine motor ...By TeresaPurchased the book for my sister-in-law who is having problems after a stroke but likes to color so I'm hoping this will be useful therapy for getting back some of her fine motor skills.
