have a lot of "sappy" stories, and they are all true. IMO even someone who isn't a "cat person" would enjoy this. In fact, the friend I ordered it for is more of a dog person. 2 of 2 people found the following review helpful. Nice, short stories. By mom shopper These are great for kids who don't really like reading (or history). They are all short little stories about cats in history. It's unique and so far has been engaging to the kids who I have had read it. We homeschool and this is nice if you want to give someone a few minutes of quiet reading time. 0 of 0 people found the following review helpful. Terrific. The stories are like potato chips. By nikki lorel Terrific. The stories are like potato chips: you can't stop at one. Read through it in a day and already have requests for loan.

100 Cats Who Made a Difference If you don't believe that one cat has the power to alter civilization, then you've obviously never heard of Tibbles (p. 12), the cat who single-handedly wiped out an entire species. Or Ahmedabad (p. 61), a Siamese kitten who sparked riots throughout Pakistan. Or Snowball (p. 14), the cat who helped to convict dozens of murderers and criminals. Or Felix (p. 155), the first cat to explore outer space. These are just four of the 100 Cats Who Changed Civilization, and this book honors their extra-ordinary contributions to science, history, art, government, religion, and more. You'll meet a cat who filed a lawsuit (p. 66) and a cat who was slapped with a restraining order (p. 75). You'll meet cats who have inspired great works of literature (p. 90) and classical music (p. 102). You'll even meet a cat who telephoned the police to save the life of his owner (p. 162). These beautifully illustrated true stories are a tribute to the intelligence, bravery, and loving nature of cats all over the world.
