Enjoyed this book very much. Humerous but true!! Having a new granddaughter , I could relate (all over again) to this book. I gave it to my son (first time daddy) and he loved it!

Funny and entertaining book. Gets right to the point in an extremely humorous fashion.

Worthless

This book made it to our "worthless list." I guess it was good for a laugh but I can think of 101 other things that first time dads actually DO need to know about baby and post-partum mom. This book was too busy trying to be funny to cover actually relevant information

Being a new or soon-to-be first time dad can fill you up with many fears and unknowns. Here are 101 amazing and humorous things all soon-to-be first time dads should know about Baby's first few months. Things that will make you laugh, smile and perhaps (at times) think you should have used a condom. But for any soon-to-be first time dad who might not think he's ready - don't worry you are! And here's what you have to look forward to! Be prepared and most of all...enjoy it all!
