Trina Dalziel : 20 Ways to Draw a Jellyfish and 44 Other Amazing Sea Creatures: A Sketchbook for Artists, Designers, and Doodlers before purchasing it in order to gauge whether or not it would be worth my time, and all praised 20 Ways to Draw a Jellyfish and 44 Other Amazing Sea Creatures: A Sketchbook for Artists, Designers, and Doodlers:

3 of 3 people found the following review helpful. 20 Ways to Love Drawing By Joan Zabelka I love all the "20 Ways" books. I'm a self-taught, doodling artist. I draw for fun, not for perfection. These books are all great ways to get some new ideas, to practice, have fun, and explore. They are not instructional; they are experiential. You copy and create your own. 1 of 1 people found the following review helpful. Not as expected, but not bad By Kyeli Smith I don't know what I was expecting, but this wasn't quite it. It's not bad, it's just... not awesome. The mermaid page, which I was

most excited about, is mostly covered by printed mermaids, not leaving a lot of room for my own doodles - and that's true for about 1/3rd of the undersea creatures. A lot of the examples are super complex, too, which I (as a beginner) find intimidating. 0 of 0 people found the following review helpful. It really is a great book. I had no idea he would love ...By Whole Foods MamaMy 4 year old has put in at least 5 hours per day with this book since we received it. It really is a great book. I had no idea he would love it so very much. I bought tracing paper with it and he has already created many many drawings and stories with the pictures in this book. I already have purchased another one of these types of books.

This inspiring sketchbook, part of the 20 Ways series from Quarry Books, designed to offer artists, designers, and doodlers a fun and sophisticated collection of illustration fun. Each spread features 20 inspiring illustrated examples of 45 themes - jellyfish, seahorses, star fish, clown fish, eels, sea lions, lobster, and much, much more - over 900 drawings, with blank space for you to draw your take on 20 Ways to Draw a Jellyfish and 44 Other Amazing Sea Creatures. This is not a step-by-step technique book--rather, the stylized sea anemones, dolphin, and squid are simplified, modernized, and reduced to the most basic elements, showing you how simple abstract shapes and forms meld to create the building blocks of any item that you want to draw. Each of the 20 interpretations provides a different, interesting approach to drawing a single item, providing loads of inspiration for your own drawing. Presented in the author's uniquely creative style, this engaging and motivational practice book provides a new take on the world of sketching, doodling, and designing. Get out your favorite drawing tool, and remember, there are not just 20 Ways to Draw a Jellyfish and 44 Other Amazing Sea Creatures!

"The best way to learn to draw is...drawing. ...This drawing book offers 45 different aquatic themes -- sharks, mermaids, clownfish, dolphins, sea turtles, and so on -- each rendered in a wide variety of simple ways, opposite blank pages for your own drawings." - Especially Happy blog
