The pictures are so funny and well-done, you never get tired of them, the card stock is solid and thankfully holds up to nails, and there's plenty of space on which to write in appointments, etc. The only thing that would make the Pets Rock calendars more than perfect is if moon phases were listed, and I don't even have a good reason to suggest that. Just rest assured that you'll love the calendars (I buy two full-size for the house and a mini for my workspace). This is a purchase you won't be sorry you made.0 of 0 people found the following review helpful. Big fan of pet rock. I am apparently not ...By Marshall TuckerBig fan of pet rock.
