**Fiona Steinkamp : 25 New Year's Resolutions - For Fish!** before purchasing it in order to gage whether or not it would be worth my time, and all praised 25 New Year's Resolutions - For Fish!:

A 'must read' for all fish and fish lovers! Hiya, fellow fish! You'll never guess what - I've written a book of New Year's

resolutions for fish! I'm so excited that I can't float on the spot - my fins are all a flutter and force me forward! You know, I just see such a great future for us fish if only we can pull together. We could easily outwit the birds and the fishermen! Just imagine if the carnivore fish stopped eating us vegetarians and if we all went round pretending we were carrying deadly stings? How different our lives - and our waters - would become! Oops, it's time I swam on to that bit of coral; I'm supposed to be meeting my buddy Ray. Do take a look at my book and see what you think! I can't wait to see a transformation of fish-kind.

About the Author Fiona Steinkamp has authored many academic articles, edited books, and worked as a medical writer and as a global publications manager. She now lives in Egypt by the Red Sea, where she spends her time swimming and writing.
