While some of the topics were good and questions thought-provoking, it wasn't really ground breaking for us. Maybe we're in the minority because we have discussed a lot of this in our relationship, but approximately 75% of the questions we've talked about already.Also, I think it's funny how they get to as many questions as they did. One question would be "what do you think about this activity?" followed by the next question "would you try that with me?" I call those bogus questions!1 of 1 people found the following review
