Schindler's List was a funnier book. This book leaves but one burning question... What is the opposite of funny? In fact, this book is also the answer to that question.0 of 0 people found the following review helpful. The best book of all time!By CarterDespite what other people have said, I find this book to be awesome. The author seems like he would be a real hoot, and quite strange. But all together, it is great. Nothing better than corny jokes.3 of 3 people found the following review helpful. Joke Was On Me!By A CustomerI didn't find one funny joke in this book!
