HA!By BuddyI have used some of these jokes in correspondence with my tax clients, but the book really was not as funny as I thought it would be.1 of 1 people found the following review helpful. Good book / poor CDBy David CaveI subscribe to Larry's ezine. I read and thoroughly

enjoyed and prospered from reading Marketing to seniors about 4 years ago. The book here is good, not the best. The Cd however is thoroughly disappointing and lacking in content. The jokes from the book can actually be used in seminars. 3 of 4 people found the following review helpful. Just What The Doctor Ordered! By Neal F, CFP Once again, Klein has delivered exactly what he promised. This is a great aid for any professional involved in public speaking or who meets with clients and wants to break the ice. When I prepare for a speaking engagement, I review this joke book and select a few of the many great jokes Klein presents. I pepper my presentation with this witty stories and it helps immediately create a strong bond between myself and the audience. Anyone who speaks publicly without this book is at a disadvantage.

As a financial speaker, I was unable to find good jokes for my talks so I had to compile my own joke book! The joke book contains humor on every major area of investing and insurance and financial professionals for use in public talks as well as one-on-one with a client. The author is President of NF Communications and dozens of investment firms and insurance companies use our marketing systems, but we are not "affiliated" with any firm or sell and financial products. Book comes complete with audio CD.
