Alex Fleming : 50 Shades Of Bullsh*t: A Delectable Impolite Adult Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised 50 Shades Of Bullsh*t: A Delectable Impolite Adult Coloring Book:

61 of 61 people found the following review helpful. this book will bring me great joyBy Katrina ErickRecently, I stumbled into an online Facebook group, Coloring on the Darkside, and that was where I discover that just because I enjoy coloring in swear words, there is not a damn thing wrong with me, I am not alone. I discovered this book through that group, and this book here, has a special purpose. These pages, are all being colored in with my beautiful glitter gel pens, then they will be removed very carefully from the book with my exacto knife, tri-folded, filled with glitter, and stuffed into envelopes with a nice fat kiss on the front. The next time some douche parks in the handicapped spot just because he's returning a red box movie and will only be a second, or the stupid bitch at the school parks in the drop off zone and walks her kid to the class room and stops to chat with the other moms while

drinking her over priced coffee, gets one. I'll park, I'll watch, and I'll laugh like the crazy person that I am, as I watch them open their love notes and glitter goes all over the inside of their vehicle. This is a great book, the paper is good quality. I attached a photo of a page that I'm coloring in with glitter gel pens, and also the page underneath to show that there was no bleeding through, and even though I color like a mad person with a fast and heavy hand, there are also no indentations. If you have fantasies of being mean to someone who deserves it, and you know that the next assault charge means jail time, by all means, get this book, and steal my idea, it will make you feel better, I promise. 12 of 12 people found the following review helpful. Buy it! You won't be sorry. By Tammy I don't think I've given a coloring book 5 stars yet. This may be a first. I love it! The weight of the book is good enough that you don't feel like you just purchased some dollar store item. I love that it is single printed pages and not back to back. No one wants to finish coloring a page only to turn to the next and realize the color shows through or bled through. That shouldn't be a problem here as long as you aren't one to trail your hand along at a snails pace. I did some tests swatches on the memo page in the back. Pencil, marker and highlighter didn't show through at all. Water color did only slightly if it had too much water in the brush. The artwork is great. The detail is perfect. It is detailed enough to keep you interested. I like that it is also not so intricate that it overwhelms your mind so it is still relaxing. Some are more detailed than others so there is something for everyone here. I think my only suggestions would be for perforated pages for anyone who *gasp* tears out the pages *end gasp* to color them. However, the book folds open very nicely to color without the need to tear it up. The other would be to relocate the website address or replace it with a small copyright mark. That did annoy me a little. As the title should make clear I obviously wouldn't recommend this to anyone that is vocabulary sensitive. We all know someone who is and just takes the fun out of it for the rest of us. In closing, I am pleasantly surprised with this book and will most likely be going back and picking up his other books. I am glad I purchased this and would recommend it to others. I did NOT receive any compensation for this review and paid for my copy. EDIT: After actually starting to color a couple of pages I have to say the web address thing grow more annoying as you go. I knocked a star off for it. I'd recommend putting it at one of the front or back pages of the book only. It is redundant on each page and too distracting to serve as a proper copyright. Maybe come up with a more logo style copyright that is colorable that could be placed on the edge of your graphics. I would also consider making the graphics more page friendly so they fill the page. Either make them landscape and enlarge them or in the future consider making your drawings in portrait shapes. 7 of 7 people found the following review helpful. 50 Shades of BS By Linda. Hodgkins I received copies of this book today (some to give as gifts). The pictures are cute without being too cutsey, well drawn and clever. I agree with the other reviewer about the link in the pictures and almost gave this book 4 stars for that reason. But I contacted the author do discuss this issue and he is taking this under consideration for future books. An artist who listens to his customers goes a long way in my book so BAM he got his star back! Thank you, Alex!

50% OFF! Available for only \$9.95! Regularly priced at \$19.99. On Special Sale Until July 5.

"LOVE, LOVE LOVE this coloring book. Just looking at the pictures has been therapeutic. The words and phrases are hilarious and the illustrations are adorable." Madelene "I Love Alex's work. I bought 8 copies and that was not enough. All my friends want one. So I have 8 even more happier friends. Great designs and artwork." A happy customer "If you have fantasies of being mean to someone who deserves it, and you know that the next assault charge means jail time, by all means, get this book, and steal my idea, it will make you feel better, I promise." Katrina Eric "I don't think I've given a coloring book 5 stars yet. This may be a first. I love it!"
