Of course, we already know all the things written about our feline friends vs. canine characters comparisons in this book, but still...it's just fun to see them in print, side by side.I've always loved cats, and as a child, I just assumed all cats were girls and all dogs were guys. As I grew older, I could still see the comparison, but boy or girl, I love all the different personalities, I see in my cats. This has some amusing photos, but the quality is rather sub par. So, in other words, if you're looking for a book full of sharp crisp photography, this isn't for you. I bought this for myself, and more for the entertainment value, rather than the photography. I had planned to share this with my less than cat loving family members, but decided not to waste my time since, they probably won't 'get it' anyways. The cat lovers already know cats rule, and can see their own cats on these pages. Still it's fun to see them get the recognition they all deserve. Great book to give to another cat lover or crazy cat lady or guy.1 of 1 people found the following review helpful. Doesn't always seem true but is always funny!By Thomas F. Resing"Doesn't always seem true but is always funny!", those are the words of my 7 year old daughter who is devouring the book. Even though there are very big words used, she reads it anyway. We both love the pictures and Jack's ironic sense of humor.Would recommend to any pet lovers, whether of the dog variety or the cat. Each page alternates funny dog and cat pictures with captions. As Elise says, "It's written from the cat's point of

view."0 of 0 people found the following review helpful. CATS are better than dogsBy SuzyThis is funny - the vocabulary is great. I gave it to my 10 year old niece (an accelerated reader) as a fun way to improve her vocabulary and just for the enjoyment of sharing our views on cats vs. dogs. The title says it all. - I was worried that it might be racy or slightly dirty - it's not - just funny and erudite. [characterized by great knowledge; learned or scholarly] and full of satire. - It's a fun read.

It's an age-old battle: cat vs. dog. Now, National Geographic and BuzzFeed's Jack Shepherd team up to settle the dispute once and for all! Documenting cats' superior abilities in such areas as artistry, athleticism, and intellect, Shepherd provides compelling insight into the fight for pet dominance. Perfectly pairing witty text with hilarious photographs and hard-hitting scientific facts, this brutally honest book culls the best evidence of the supremacy of cats (that the Internet can provide) to establish with definitive proof that individuals of the feline persuasion reign supreme over their canine counterparts.
