If you've ever worked in a financial institution, you'll recognize coworkers customers. If not, you are sure to recognize the customer that was holding up the line in front of

you. Hopefully, you don't recognize yourself, unless it is in one of the nicer customers! Interesting back story on how why financial institutions have certain ways of doing things. Remember - don't take it out on the people on the front line. Written intelligently and humorously! Great gift for your favorite bank teller or , a friend or family member who works in a bank, and a good read for you!0 of 0 people found the following review helpful. Amazing!!!By Susan DuncanThis book is absolutely entertaining!! As I was reading the book, I could hear Sandy telling these stories!! I have known her for many, many years, and she has always been a great story teller. Sandy has kept many of us in stitches, and yes, some have peed our pants listening to her! Most of us can relate to some of the situations Sandy has written about. You won't be disappointed with this purchase!!!0 of 0 people found the following review helpful. A worthy read !!By Lisa M.A very entertaining read enjoyed all the stories of behind the scenes in the life of a banker. Informative funny and beautifully written the writer keeps you waiting for her next adventure. Highly recommend falling into the life and times of this writers experiences.

Sandy K. Jones began her banking career as a teller, just one of the many worker bees providing the first line of service to bank users—and the first line of defense against upset customers. Over the years, Sandy has been yelled at by complete strangers, dealt with unexpected drive-thru visitors, and worked with the best and worst the industry has to offer. She survived it all with a deft sense of humor. From the small family atmosphere of a community bank to large banks where people take a back seat to sales quotas, Sandy's seen it all. If you've ever wondered why the lines at banks are so long, *A Banker's Life* has the answer! Banks offer a view of the world in miniature. Watching her customers, Sandy has seen the times change—and not always for the best. When she started, manners were proper, and dress was conservative—a stark contrast to today's environment of disrespect and barely there clothing. Yes, Sandy's seen it all. If you've ever suffered under the yoke of an unpleasant boss, been betrayed by a coworker, or had to deal with rude, angry, or just plain weird customers, you'll emphasize with Sandy's touching, funny stories.
