By Folmhusen I was very excited about receiving this book and I am pleased with the book. What I'm less than pleased about is that the dust cover was damaged in transit. This may seem like an inconsequential thing, but I purchased this book to give as a gift and it looks used. I kind of wish I had just purchased it at BN.

By Frank My daughter reads this to her 1 year old and the baby sleeps well after hearing it. Of course my daughter and son-in-law think it is hilarious!

By James A. Conner This is great for adults!

A New York Times bestseller! What do you do when you spot a wild Trump in the election season? New York Times bestselling author and comedian Michael Ian Black has some sage advice for children (and all the rest of us who are

scratching our heads in disbelief) in this perfectly timely parody picture book intended for adults that would be hysterical if it wasn't so true. The beast is called an American Trump. Its skin is bright orange, its figure is plump. Its fur so complex you might get enveloped. Its hands though are, sadly, underdeveloped. The Trump is a curious creature, very often spotted in the wild, but confounding to our youngest citizens. A business mogul, reality TV host, and now...political candidate? Kids (and let's be honest many adults) might have difficulty discerning just what this thing that's been dominating news coverage this election cycle is. Could he actually be real? Are those...words coming out of his mouth? Why are his hands so tiny? And perhaps most importantly, what on earth do you do when you encounter an American Trump? With his signature wit and a classic picture book style, comedian Michael Ian Black introduces those unfamiliar with the Americus Trampus to his distinguishing features and his mystifying campaign for world domination...sorry...President of the United States.
