Dandi Palmer : A Colouring Book of Birds (Coloring Books) before purchasing it in order to gauge whether or not it would be worth my time, and all praised A Colouring Book of Birds (Coloring Books):

1 of 1 people found the following review helpful. Wonderful depiction of wild birds and a few pet birdsBy DianeWonderful depiction of wild birds and a few pet birds. Each picture had the name of the bird so one could, if desired, research the coloration to make it realistic, or use any colors and create magical birds! Very well illustrated. 0 of 0 people found the following review helpful. EileenBy Kindle CustomerEileenI love all birds as well as my four legged friends. The drawings are very well done and I would enjoy embellishing them with vivid colors on my kindle coloring app.and some wild animals who stay within their territory. maggieileen45@yahoo.com 0 of 0 people found the following review helpful. Great Coloring book for adults who like big birdsBy Simba4runnerAbsolutely wonderful amazing pictures to color. I wanted something to keep me busy while I heal from surgery. This was a lot of fun.

Original pictures of parrots, penguins, cockatoos, geese, cockatiels, cranes, eagles, budgerigars, flamingos, and many more colourful birds. Suitable for all ages, with strong outlines for ease of colouring. The pictures are on one side of the paper, which is not thick and best suited to a dry medium. Downloadable files of these pictures to print out can be found at <https://www.booksfromdodo.uk>
