Have you ever felt that your healthcare provider wasn't treating you as a real person? The current book presents stories as though idiot healthcare providers would actually apply the lessons presented. Sample lessons include: A job doing once is worth doing twice. While the customer is always right, the patient is always wrong. Attorneys are your friends. When you control time, you control patients. When in doubt, prescribe medicine. Get to the source of all ailments; the patient's head. Only you, as the healthcare provider, knows what is best for the patient. Laughter is the best medicine, especially when you're laughing at the patient. What a patient doesn't know, won't hurt them. The current book provides humorous insight into the making of an idiot healthcare provider.
