The designs are centered on the page and don't allow much to color. Also, there are some revealing pictures of the female body.1 of 1 people found the following review helpful. Disappointed!By Ben RushSo sorry I spent money on this! Each picture has the same background with female figures wearing casual clothing, jeans, etc. On top of that the clothing has the same design--little circles, not

much room for imagination or creativity. The last part of the book has unusual free form girls with no background.
