Original drawings from an imaginative artist!By ChrisWesterlyThis adult coloring book is 50 pages of original art, which will give many hours of happy coloring. Each of the 25 designs is printed twice, so you can try different color combinations or share the experience and color with a friend or family member. The drawings are printed on one side only, so it's easy to slip a blank protective sheet behind the page to make sure that gel pens and markers don't bleed through. The drawings offer plenty of variety, with little spaces for small bursts of color, and larger areas to try blending. Each drawing has a central figure, either a human, mythical creature or fantasy beast. There's lots of creatures to chose from!It's a pleasure to see one artist's vision all the way through a coloring book. So often, the collections are mash-ups, without a cohesive style. In this collection, you can really see the vision on one imaginative artist.
