**Infinity Coloring Books : Adult Coloring Book: Stress Relieving Ocean Animal Designs** before purchasing it in order to gage whether or not it would be worth my time, and all praised Adult Coloring Book: Stress Relieving Ocean Animal Designs:

1 of 1 people found the following review helpful. Great calming pictures of Ocean Life; well-thought out designs and charming pictures from all over the ocean. By J Morris I always have a hard time finding coloring books that don't just have silly patterns and pictures that could have been drawn by a child ... this is VERY different. These pictures are well thought out. They are intricate in design and range from easier to super detailed oriented. The pages are great. I couldn't find a picture I didn't like. I would recommend putting a scrap piece of paper between the pages if you are using markers or heavy pens. Each page has a blank back so framing them is always a possibility. The designs are artistic and fun to choose which one to do next. They are pretty and give you a new perspective on ocean life. These designs are definitely relaxing and calming to look at and range from great detail to less detail and more larger

coloring areas. I received this product at a discount for my unbiased review. 0 of 0 people found the following review helpful. Don't waste your money. By WYlady We bought this as a present for our niece who is into adult coloring books and wanted something with ocean animals in it. The entire thing feels cheap and flimsy, the pages were already pulling from the binding when we received it from . Many of the designs are quite small, taking up less than 1/3 of the page. The most frustrating part is that several of the pages aren't of ocean animals or even remotely related to the ocean at all. There were two pages with horses and one with a toucan, and that is just a few of the examples. If I had wanted horses or toucans, I would have bought a book with horse patterns or bird patterns. Very frustrating. I would have been better off finding free coloring pages on the Internet, punching holes in them and making my own notebook. Save your money and look elsewhere, this product is crap. 0 of 0 people found the following review helpful. Misleading. By Customer The title states ocean animal (33%), but it had more land animals (60%). The pictures were small and filled up 1/3 of the page - more white space than picture. The paper quality was like bond paper. The binding did not look professionally made. I have seen the same pictures in other adult coloring books.
