0 of 1 people found the following review helpful. Poorly DoneBy ShoosmumAnother disappointing coloring book. Multiple blank pages with no illustrations. I think the intent might have been to prevent bleed through to the next page. The images look like poorly traced photographs. It looks to be a hastily put together book to take advantage of the current trend in adult coloring books. There are much better fashion books available.0 of 0 people found the following review helpful. Art Nouveau FashionsBy Han HanGood Art Nouveau Fashions Designs, I particularly like the dresses, they are so pretty. Best thing as well is blank pages protect each drawing so no bleed through and I can use my steady fine liners.
