AAA+++By CarbonlordMy daughter had me on a buying spree at BN and since there was a great sale, I picked up a few books for her and my son. This was one of them, she really liked the Christmas designs and I noticed it was a really well done book with quality pages and was very nice. Even though the pages were very good, I would still recommend using a safety sheet underneath, if you're going to be using markers. She uses mostly pencils and the sheets are excellent for that.This book combines aspects of Christmas mixed with a mandala feeling, One page was just Christmas Balls over and over and filled the page, it was beautiful, same with another done for gift boxes, wrapped, just filling the page. So if you like the repeating patterns that you can color all differently, this one is a WINNER!0 of 0 people found the following review helpful. This has been one of my favorite coloring books by far I love the designsBy Lorraine F.This has been one of my favorite coloring books by far I love the designs. Each

page is complex but easy enough to complete in one sitting. I have nearly completed the book and will buy some of the other books in this series. One thing about this book is the paper is really nice with a smooth texture that takes ink really smoothly with full coverage without requiring going over multiple times. The pages are perforated so they can be removed and used as journal pages or framed. I use markers and unfortunately they bleed through the page so the reverse of the page is dotted up with bleed-through but there isn't much help for that. Also, the designs are all different but have similar design elements from page to page so the lack of variety in the details might not appeal to some, Otherwise I love the book myself and highly recommend it. I used a wide variety of pens - sharpies, color pencils and gel pens. 0 of 0 people found the following review helpful. I have always loved to color. By M. Hayes I have always loved to color, from the time I was able to pick up a crayon until now. Long before it became a trend, I have been coloring as a way to reduce stress. I would doodle with a black pen while I was on the phone (which is what I do for work at a call center) and then after I had a page full I would fill in with colored pencils. Now that "Adult Coloring Books" have become a trend, I have started finding more and more books available. I was a bit skeptical about being able to print from a kindle book, but there was a PDF file included that you can print from. You can choose to print one or two or the whole book multiple times. It is a book with low resolution images of coloring pages. Once you have the PDF, you can print the images and color away! I chose to print at home on regular copier paper and color one image at a time. It's great that you can use the same design and color many different ways if you wish. I have made my daughter (she's 13) a binder with a bunch of printouts from this and several other books and a pencil pouch with coloring pencils so she can take it wherever she wants. In regards to the designs, there are many designs that vary significantly in detail and complexity. Again, I see this as a positive since if I have less time on my hands, I can do a simpler design or I can share it with nephew to color. But, if I have more time on my hands or I really want to escape and relax into some coloring meditation for a while, I can choose a more complex design. I REALLY like the idea of a PDF that can be downloaded and the flexibility it provides for lots of fun family coloring. I'll definitely be checking to see if there are any other books available by this artist in the future. \*\*\*\*\*If you found my review helpful please vote "YES" as this helps me become a better reviewer!\*\*\* I received this product at a discounted rate in exchange for my honest and unbiased review. Christmas Coloring Pictures 3 reasons why you should color (even if you are a grown up): It's a great activity to relieve stress and anxiety. It brings out your creativity. It has self-soothing meditative benefits. Holiday Coloring Pages Coloring books can be compared to yoga and meditation in the way they turn-down your stress response. When you focus on the activity of coloring, it has a "grounding effect." The process that creates this effect has to do with the sound of the pencil rhythmically moving back-and-forth on the page, the gentle pressure of the coloring instrument (pen, marker or pencil) on the page, and even the soft texture of the paper gliding under your hand. >> Buy This Adult Coloring Book Today and Start Relieving Stress and Having Fun!
