My mother got me my first adult coloring book for my birthday last year and it took me back to my childhood. I recommend only using colored pencils or very fine point markers when doing these books. This book is a pdf which is great because you can print as many copies as you like so the possibilities are endless! It gets downloaded to your reader app, and you print them as you like. So print them all and make a book of your own or print them as you do them, it is up to you! This is an extremely relaxing hobby and a great way to calm your mind after a busy day. I was able to get this item for free in return for my testing it and providing an honest review. I use reviews regularly to make my purchase decisions. These opinions are my own and are in no way skewed by the discount I received. I hope this review will help you find the right product for you!0 of 0 people found the following review helpful. HAS TINY PICTURES AND TOO SMALL FOR ME TO COLOR AND ENJOY 2 of 3 people found the following review helpful. I have always loved to color. By M. Hayes I have always loved to color, from the time I was able to pick up a crayon until now. Long before it became a trend, I have been coloring as a way to reduce stress. I would doodle with a black pen while I was on the phone (which is what I do for work at a call center) and then after I had a page full I would fill in with colored pencils. Now that "Adult Coloring Books" have become a trend, I have started finding more and more books available. I was a bit skeptical about being able to print from a Kindle book, but there was a PDF file included that you can print from. You can choose to print one or two or the whole book multiple times. It is a book with low resolution images of coloring pages. Once you have the PDF, you can print the images and color away! I chose to print at home on regular copier paper and color one image at a time. It's great that you can use the same design and color many different ways if you wish. I have made my daughter (she's 13) a binder with a bunch of printouts from this and several other books and a pencil pouch with coloring pencils so she can take it wherever she wants. In regards to the designs, there are many designs that vary significantly in detail and complexity. Again, I see this as a positive since if I have less time on my hands, I can do a simpler design or I can share it with my nephew to color. But, if I have more time on my hands or I really want to escape and relax into some coloring meditation for a while, I can choose a more complex design. I REALLY like the idea of a PDF that can be downloaded and the flexibility it provides for lots of fun family coloring. I'll definitely be checking to see if there are any other books available by this artist in the future. *****If you found my review helpful please vote "YES" as this helps me become a better reviewer!***I received this product at a discounted rate in exchange for my honest and unbiased review. House Coloring Pages This city coloring book is a great way for adults and kids of all ages to improve their motor skills, focus and creativity. Color the pages and then share them with all of your friends on social media! Building Coloring Pages 3 reasons why you should color (even if you are a grown up): It's a great activity to relieve stress and anxiety. It brings out your creativity. It has self-soothing meditative benefits. House Coloring Book Coloring books can be compared to yoga and meditation in the way they turn-down your stress response. When you focus on the activity of coloring, it has a "grounding effect." The process that creates this effect has to do with the sound of the pencil rhythmically moving back-and-forth on the page, the gentle pressure of the coloring instrument (pen, marker or pencil) on the page, and even the soft texture of the paper gliding under your hand. >> Buy This Adult Coloring Book Today and Start Relieving Stress and Having Fun!
