Yes, you do get to color shoes! Most of the designs are very detailed. This is a nice change from mandalas and animals. The link at the end of the book is very easy. You just click and have your PDF file ready to print or save. The author has done an excellent job of centering the designs on the print page and making them big enough. 0 of 0 people found the following review helpful. This has been one of my favorite coloring books by far I love the designs By Lorraine F. This has been one of my favorite coloring books by far I love the designs. Each page is complex but easy enough to complete in one sitting. I have nearly completed the book and will buy some of the other books in this series. One thing about this book is the paper is really nice with a smooth texture that takes ink really smoothly with full coverage without requiring going over multiple times. The pages are perforated so they can be removed and used as journal pages or framed. I use markers

and unfortunately they bleed through the page so the reverse of the page is dotted up with bleed-through but there isn't much help for that. Also, the designs are all different but have similar design elements from page to page so the lack of variety in the details might not appeal to some, Otherwise I love the book myself and highly recommend it. I used a wide variety of pens - sharpies, color pencils and gel pens.0 of 0 people found the following review helpful. Nice book but just not my thingBy Phyllis Schnell JettNice book but just not my thing. I ordered it with my Prime so I could check it out for free and it is not something I would purchase. Nothing wrong with it if you just like coloring dresses but I don't but I didn't think it would be fair to give it a one star rating since its really just not my thing and might be someone elses.

The process that creates this effect has to do with the sound of the pencil rhythmically moving back-and-forth on the page, the gentle pressure of the coloring instrument (pen, marker or pencil) on the page, and even the soft texture of the paper gliding under your hand.>>Buy This Adult Coloring Book Today and Start Relieving Stress and Having Fun!
