Halloween and general spooky designs to color for teens and adults.By CarbonlordMy daughter has been hooked on coloring and one of her favorites is Emma Andrews. This new book by Emma, is filled to the brim with a variety of halloween designs.We purchased Emma's Christmas book: Christmas Delight and it is spectacular! We also have the Valentine's Heart book, since she loves hearts!!!!If you get the printed version, I would recommend using a safety sheet underneath, if you're going to be using markers. My daughter uses mostly pencils and the sheets are excellent for that. This one we got in the Kindle format and it includes (As all of Emma's books do) a printable Adobe PDF file.I have included some pics for you to see some of the designs, Hope it Helps:)2 of 2 people found the following review helpful. Not as I expected.By amsThere was one page that I was excited to color, Someone posted a picture of it on here. It's the one with all the plain pumpkins. I couldn't find it in my book, when I got it. That's disappointing, also there is a lot of black in this book. It should still be fun to color

My mother got me my first adult coloring book for my birthday last year and it took me back to my childhood. I recommend only using colored pencils or very fine point markers when doing these books. This book is a pdf which is great because you can print as many copies as you like so the possibilities are endless! It gets downloaded to your reader app, and you print them as you like. So print them all and make a book of your own or print them as you do them, it is up to you! This is an extremely relaxing hobby and a great way to calm your mind after a busy day. I was able to get this item for free in return for my testing it and providing an honest review. I use reviews regularly to make my purchase decisions. These opinions are my own and are in no way skewed by the discount I received. I hope this review will help you find the right product for you!

When you focus on the activity of coloring, it has a "grounding effect." The process that creates this effect has to do with the sound of the pencil rhythmically moving back-and-forth on the page, the gentle pressure of the coloring instrument (pen, marker or pencil) on the page, and even the soft texture of the paper gliding under your hand. >> Buy This Adult Coloring Book Today and Start Relieving Stress and Having Fun!
