Rod Davis : Out on a Limerick before purchasing it in order to gage whether or not it would be worth my time, and all praised Out on a Limerick:

0 of 0 people found the following review helpful. Five StarsBy Johanna Higleyexcellent reading book for kids0 of 0 people found the following review helpful. A Fun Combination of Animals and LimericksBy M. J. BatesA delightful book with terrific illustrations. I loved the limericks related to animals and the special "scoops" on each one that were filled with surprises I don't want to forget. The author is so knowledgeable that I enjoyed all the levels of information and insights. No one is exempt from learning something new in such fun ways. I hope the book finds its way into the hands of creative teachers (in and out of classrooms). I will be reading this to my grandchildren! I think readers of all types will be enjoying this book thoroughly, AND, expecting more of the same creative genius by this author, Rod Davis.0 of 0 people found the following review helpful. Outstanding Teacher ResourceBy Curt BumcrotThis book is an excellent resource for educators who want to encourage creative writing skills. I have used this book in the classroom and as a tutor, and the students love it.! It is well written with beautiful illustrations with activities that

reinforce knowledge learned about different animals, insects and birds. Each limerick is accompanied by information where you learn specific information about these amazing creatures. I can't recommend this book highly enough!

Writing this book reignited in me a childlike thrill of discovery. What started out as a book of silly limericks led me into the weird world of the creatures about which I was writing. Consequently I decided to follow each limerick with a section called "What's the Scoop?" In it you'll find some unusual facts that many books don't cover about that animal. The last part of the book contains several activities called "What Did You Scoop Up?" It has exercises to help kids remember what they read. If you laugh half as much while reading this book as I did while writing it, you better buckle up.
