Frank M. Bryan, Bill Mares : Out! The Vermont Secession Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Out! The Vermont Secession Book:

0 of 0 people found the following review helpful. A great fictional look at Vermont's succession.By timmahA surprisingly large amount of real history woven into this great book. Anytime Maple Syrup is used as a weapon, you know it is a good story.1 of 2 people found the following review helpful. A good quick rompBy Jason A. GagnonThis book is a "what if" telling of the adventures of a newly independent Vermont, had they kicked the rest of us out of the union in 1991 and declared themselves a free and independent republic. The book is a bit of a comedy routine written around the misadventures of the federal forces intent on reclaiming Vermont for the US and Vermont's ability to constantly outwit the flatlanders.This is one of those books that the more you know about Vermont, the more enjoyable it will be- as there are A LOT of jokes about specific people. A few of these names are still recognizable on the national stage (Bernie Sanders, Jim Jeffords) but most of these names, I imagine- never had much currency outside of Vermont. But why should they? This is a book for the proud Vermonters, and it has nothing to prove to those of us unfortunate enough not to live in that great state.If you are interested in the contemporary Vermont Independence Movement this book isn't the first one you should read. Or even the fourth or fifth. But it is worth having on your book shelf and is a quick and enjoyable enough of a read that you should sneak it right to the top of your reading pile anyway.2 of 2 people found the following review helpful. HilariousBy A ReviewerMares and Bryan present a hilarious book, which sets up the premise of the small rural state of Vermont taking on the United States government

by seceding from the Union. Great insights and extremely funny humor is laden throughout the book. A must read for any true Vermonter. Beware "flatlanders".
