Beautiful binding and no marker bleed.By CourtkneeI anticipated this coloring book release for at least a month, and I am luckily not disappointed in the slightest. This has become my new favorite coloring book (even beating out the highly coveted Secret Garden!). I have Zoe de las Cases's Secret Paris book, but found myself being more interested in the fashion and beauty spreads in that book than the architecture scenes. Paris Street Style took all my favorite parts of Secret Paris but left out the things I didn't.The drawing style is similar to all of her other books: a sort of sketchy line style (see pictures below). It's still easy to color in but the hand drawn style feels more authentic, like you could be a chic fashion designer working on your next line. There are five main types of pictures: head-to-toe fashion looks as worn by people, "spreads" of different clothing or beauty items together (see the skirt example below), artistic-y headshots with inspirational(ish) quotes, some vintage-y patterns and a few scenes. The scenes are my least favorite just because they tend to be very zoomed in on buildings or architecture, but the variety is nice.ALSO: the paper (and book) quality is A+. Unlike my Secret Paris book, I can actually use Staedtler Fine Liners in this book without bleed through. The paper also seems to have less grooves than other de las Cases books, so my Prismacolor Premier pencils seem to lay down color with less white sticking through. The book feels so nicely bound. You can spread it flat without cracking the binding, and there's a black ribbon that you can use to mark your place. It also has a rubber band to hold it close, so

the book retains the shape. It's a little oddly sized - square, but slightly smaller than a normal coloring book but not really what I'd call journal size, either. I cannot tell you how amazing this book is. If you're a fan of fashion, beauty and whimsy, you have to grab this one. 1 of 1 people found the following review helpful. Great Variety of Pictures to Color! By Suzy Blazak Another absolute winner by the artist Zoe de las Cases! I have two of her other coloring books, but this one is great in the way that you can keep them in a book form to show them off. The artist gives you a wide variety of scenery, clothing, and everyday things that we use to bring out your own imagination. Beware using markers though, as they tend to bleed through to the following page which is another picture. I would reserve it for colored pencils. It would make a great gift along with a set of Prisma colored pencils. I truly hope she comes out with more like this in the near future. 29 of 29 people found the following review helpful. Beautiful "Journal" Coloring Book By K. Howard I absolutely love this coloring book! It's a very beautiful design, like a journal. There is a combination of large and small areas to color; I found that using a combination of colored pencils and fine liner pens (like Stabilo) work beautifully. The pages are of high quality. I would love more coloring books to be made in this style - I don't feel like I'm toting around a coloring book!
