From American Meteorological Society : Partly to Mostly Funny: The Ultimate Weather Joke Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Partly to Mostly Funny: The Ultimate Weather Joke Book:

2 of 2 people found the following review helpful. Love it!!By Kindle CustomerI bought this book for my husband as a Valentine's gift. He is a volunteer local weather reporter who spends a lot of time watching "the cloud maps". He loved

the book. The book's content is rich. You can find jokes about weather, seasons, political and weather, holidays and weather, unusual weathers and so on. My husband immediately found a joke and sent it to his facebook friends. The book is one of best gifts from me to him. Thank you, Jon Malay. 0 of 0 people found the following review helpful. Thank you Jon for a very funny publication. By Michael Brister Book is a riot!! Laughed at most of the jokes. Thank you Jon for a very funny publication. Mike 0 of 0 people found the following review helpful. Four Stars By C. Courtier The meteorologist I gifted it too was delighted!

Q: Where did the meteorologist stop for a drink on the way home from a long day at work? A: The nearest isobar! Q: What's the difference between partly cloudy and partly sunny? A: It's never partly sunny at night! Q: Do you know what they call people who believe in letting a smile be their umbrella? A: Wet! When rain falls on a wedding yet the day is clear everywhere else, or when unexpected sunshine makes a laughingstock out of a prediction of a stormy day, it is good to keep a sense of humor about the weather. Thankfully there are a wealth of weather jokes to tickle the funny bone of anyone who makes a hobby or career out of weather watching. Partly to Mostly Funny revels in puns, wordplay, and cartoons that take a lighter look at weather, climate, and the life of a meteorologist. They will evoke lighthearted chuckles from professionals, cheering up those who must keep their eyes trained on sometimes darkening skies, and will delight the rest of us with the sillier side of weather.
