Then this is your book! Funny indeed!4 of 4 people found the following review helpful. Good Natured Humor for a Bruising Political Season!By BuckyIf, like me, you are more than a little fed-up with the brutal attacks and partisanship of this year's election, Pat the Politician will provide a welcome relief. A parody of the children's classic, Pat the Bunny, this humorous book pokes (and pulls) fun at folks on both sides of the aisle. Grown-up kids can pull at Barbara Bush's hair, stroke Bill Clinton's underpants, read Bush I's lips, feel Al Gore's wooden personality, and much more. This is great fun in a year that hasn't given us much to laugh about.0 of 0 people found the following review helpful. A real winner!By SingletonThis book is such a welcome relief from all the scandal that happens in our government. I loved looking into Bush's head, feeling Gore's personality and groping Schwarzenegger. This book has it all, especially a good laugh.

Have you ever wanted to really reach out and touch or pull or poke or even grope a politician? Well, now's your

chance, pat the politician is the "feel good" political book of the year. pat the politician is a hilarious touch and feel political parody of pat the bunny, one of the best-selling children's books of all time. Like the original, you'll find Paul and Judy on every spread--but now they're all grown up, registered to vote, and eager to interact with the likes of Bill and Barbara, George and George, Ronald and Arnold, and more. Go along with Paul and Judy as they get "in touch" with some of their favorite politicians. It's a modern day take-off, ideal for today's disillusioned electorate!
