I have other pattern books that are all like a small image repeated in a 3 by 3 box. These are not like that. I love these designs! Checking both books I could not find any repeats. I am looking forward to many fun hours with these books. I will be adding the others in this series to my wish list.4 of 4 people found the following review helpful. Loved all three. My wife likes the LARGE coloring areas, and I like the small intricate ones. All of her books have both. I love coloring, it is like meditation, very relaxing.
