Pennsylvania Wildlife Tails is funny.By Customerthis book is a bunch of short stories the game warden gets from people, some seam a little far fetched but still believable.

Pennsylvania Wildlife Tails is a fun way to learn about wild birds and animals. Wasserman, a wildlife conservation officer with the Pennsylvania Game Commission for 32 years, has collected 94 hilarious anecdotes about wildlife and put them to pen. Each is illustrated by famed cartoon artist, Dana Twigg. Some will make you laugh, others might just astonish you, but be assured, dear reader, every one is true.

From the Publisher Having spent more than half his life working as a Pennsylvania wildlife conservation officer, Wasserman has learned one indisputable fact about animals: whenever you tell someone that a wild critter won't behave (or misbehave for that matter) in a certain way, you're bound to be made a fool of. From the Author Our furred and feathered friends have been surprising me with their antics for close to three decades now, and I thought it high time to share some of these stories with other folks who love the outdoors. I wrote this book for people who treasure wild birds and wild animals, and who enjoy the feeling of wonder and laughter that ordinary animals can evoke when they act in extraordinary ways. Herein you will find 94 of the most unusual, comical and amazing stories I've ever heard on the subject of people and animals. Some will make you laugh, others may astonish you...but be assured, dear reader, every one is true! About the Author William Wasserman has written five books about his life as a wildlife conservation officer. He penned a weekly outdoor newspaper column for 15 years and has written numerous articles for Pennsylvania Game News, Fur-Fish-Game, Black Belt, International Game Warden, The Alberta Game Warden and other nationally published magazines.
