Funny Comics for Gamers!By JBakerArtPenny Arcade is a comic that my husband likes to read online and I was so excited when I found the physical books with all of his favorites strips. The book is a paperback but really good quality! This book is not one that would fall apart at all or cheaply made. I ordered the book and it shipped fast and arrived quickly. Just in time to give it as a gift for the holidays! I looked over the books and they were in great shape and none of the pages or the spine had damage. The pages had vibrant colors and illustrations.I really do think this would be loved by anyone who is a fan of Penny Arcade or good comics. It is suitable for adults or kids. This comic book is great for anyone in your life who is into gaming and comics, they often have comics about gaming ( console and pc). My husband is a huge fan and this was a perfect gift for him. He's such a big fan that I ended up buying three more of the books! I will continue to buy the rest of the books

to complete the collection very soon.0 of 0 people found the following review helpful. The best for gaming stripsBy Alex KPenny Arcade is a longstanding comic that offers a hilarious satirical insight into the gaming/media world. If you're not fairly tied to gaming and entertainment news, this comic won't be for you. I however have enjoyed every strip and love these guys.0 of 0 people found the following review helpful. He loved it!By Liz AlexanderBought as a gift for my husband. He loved it!

OHMYGODDIDYOUSEETHAT?!? So, anyway, I'm sure you stopped by to find out what kinds of Penny Arcade goodness we will be lavishing upon you with this latest collection. Oh, and you came for the cinnamon almond biscotti, of course. But mostly you came because you can't get enough of the smash-hit web-comic Penny Arcade. Well, my friend, do we have the goods for you! All the Penny Arcade web-comics published online in 2003, a smorgasbord of commentary courtesy of Gabe and Tycho, and more bonus material than you can shake a pigeon at! Huh? Oh, sorry, did I say "pigeon?" I meant to say "stick." Sorry, but that bird is still really creeping me out. You can tell it's totally planning something. Can't you see it watching us, with its eyes!?! Man, birds are weird...
