Another Great Book!By JBakerArtPenny Arcade is a comic that my husband likes to read online and I was so excited when I found the physical books with all of his favorites characters. The book is a paperback but really good quality! This book is not one that would fall apart at all or cheaply made. I ordered the book and it shipped fast and arrived quickly. Just in time to give it as a gift for the holidays! I looked over the books and they were in great shape and none of the pages or the spine had damage. The pages had vibrant colors and illustrations.I really do think this would be loved by anyone who is a fan of Penny Arcade or good comics. It is suitable for adults or kids. This comic book is great for anyone in your life who is into gaming and comics, they often have comics about gaming (console and pc). My husband is a huge fan and this was a perfect gift for him. He's such a

big fan that I ended up buying three more of the books! I will continue to buy the rest of the books to complete the collection very soon.0 of 0 people found the following review helpful. Penny Arcade Delivers a Fifth TimeBy William S. BeckettIf you are looking at this book most likely you are all ready a fan of Penny Arcade. If you are a fan and wondering why you would buy a book containing strips freely available in the Penny Arcade archives, I will tell you that Tycho has, as with the first four volumes, gone back and written new commentary for all the strips in the book. As Penny Arcade fans know, a great part of the Penny Arcade experience is enjoying the strips again through Tycho's commentary on the thought process behind the strip and/or the events that led to it. There is a section in the back which includes sketches made on various convention table tops from across the years which is fun bonus material as well.1 of 1 people found the following review helpful. Superbly funnyBy Michael KearneyDespite the free availability of all these comics online, there is something still quite fantastic about getting to hold them in your hand. Jerry provides a comment or quip or backstory on each one, plus there are bonus bits of artwork, a few introductory statements from people who know Jerry and Mike, and, best of all, you can read through another year of strips during those horrifying times of no Internet access! If you are a fan of the series, big or small, you should definitely get all the books they have. It's absolutely worth it.

Join us, intrepid explorers, as we journey once again into the depths of the Penny Arcade archives, facing eldritch curses and monstrous perils aplenty in our quest to unearth the ancient treasures of the year 2004 A.D.! Marvel at the mysteries laid bare within - at these tales of epic gaming, appliances gone bad, square-dancing blood feuds, and so much more! Face, if you dare, the ominous foreboding of The Last Christmas, the challenging depths of Twisp and Catsby, and the poignant tragedy of The Wandering Age!
