I've been in sales for years, and Jonathan Green ...By Kyle RobertsonI've been in sales for years, and Jonathan Green excited this the scientific way. Picking up women is the equivelant to cold calling a prpspect to purchase an upper teir product. You have to know how to cope with rejection

to gain your goal. If they reject you, they weren't interested anyway. Jonathan gives you the ammunition to go into the dating war with both barrels, and tells you that Michael Jordan missed 100% of the shots he didn't take, This book gives you the tools to go for it, because if you don't take your shot, you'll miss them 100% of the time as well. 1 of 1 people found the following review helpful. A good one By Sarah Crawford Jonathan is right. He said in this book that it is not enough to provide you with the lines but also you must know how to make a follow up, so that you wouldn't have to think hard on what to say next. And he explained that well in this book. Congratulations! I especially like what he shared in Chapter 9, which also made me think. It is actually applicable for both men and women and it's something to think about. Sometimes you cannot help but wonder what or how to answer that question. The lines are not the usually lines you hear from somebody. Glad to have a chance to read this. Thank you. 0 of 0 people found the following review helpful. Fast and Easy without sounding Fast and Easy. By Tedric Garrison In a world where everybody wants a fast and easy answer, Jonathan takes it to the next level. Sure he gives you some great opening lines, but he goes beyond that as well. A) he explains why the line works, B) he gives you ideas for variations, and C) he let's you know what to do once you've got their attention. Fast and easy read and WELL worth the price!
