for easy removal for hanging and framing. • Coloring is best done with pencils, gel pens and markers (with a piece of card stock or a few pieces of paper underneath to prevent bleed-through). Even though this piggy coloring book was designed for stress relief for adults, kids will enjoy it too!

About the AuthorMy life as an artist has always been about the fun of creating. Art is a way to escape from the sometimes mundane world around us. And so, filling a page with any color I choose helps me to feel relaxation and release the stresses of life. With my adult coloring books I want you to feel the same way I do. Many of the coloring pages in my books involve my abstract works that I have created over the last 7 years of selling my art and now professionally. Most of my coloring books for grown ups (and kids too), include adorable images of cats, piggies and many other cute critters. Then there are some that include mandalas and abstract designs. The pages range from being easy enough for beginners to those created for the skilled and experienced coloring book enthusiasts. Each coloring book typically consists of 25 designs with two copies of each for double the possibilities or fixing a mistake. Experiment with different color schemes or mediums and share with your friend, child or sibling. These coloring books are lovingly created for people of all ages to enjoy!
