It covers so many things that my Mama taught me, some that are sadly considered outdated, but many that are so very important in our day-to-day lives, like how to properly iron a shirt for that job interview or to attend an important meeting...not life or death, but whether it is done or not sure can affect the quality of our life or the life of that young person we care about! The tips in this little book are about quality of life. About making ourselves, our homes, whatever we need to do better as a result, our lives better. Don't let that young person

you care for, leave home without a copy to refer to...life is hard, they need all the help we can give them.0 of 0 people found the following review helpful. Great Stocking StufferBy TKNot as helpful as I thought and littler than expected. Still a great gift for a stocking stuffer.0 of 0 people found the following review helpful. Cute and helpfulBy Natalie WallaceI think this book is super cute and it has really nice advice. The cleaning sections are great, especially when you want to make your own or want to be more eco-friendly. I like reading it just to give myself little refreshers on how to keep house, even though it's been years on my own!
