The perfect gift for moms-to-be (also for new and not-so-new moms!)By Lori WhitingHaving just had two babies in the last couple of years myself, I related to every page of this book (and had a great laugh doing so!) I enjoyed this so much I bought 10 copies to give as gifts to all my expectant and new-mom friends. I even bought a copy for my mother-in-law who was last pregnant in the '70's and still said she identified with all the haikus! This is the perfect gift for any baby shower or even for the moms of toddlers who may

have forgotten the pain of childbirth but are in need of some serious laughs.0 of 0 people found the following review helpful. Just What the OB/GYN orderedBy K. E. MachanicI recently attended a baby shower at which the mom-to-be received this delightful book. After reading a few of the haiku, she passed it around to the guests. As we read, we alternated between laughing uproariously and nodding sagely in agreement. This little book is a must for expectant moms.1 of 1 people found the following review helpful. Pregnancy Haiku is lots of funBy Hilary BuxtonWith this little bookPregnancy's a howlGet ready to laugh!Moms-to-be definitely need some mirth along with their increasing girth... and this book delivers! Pregnancy puns aside, I bought this for a newly-pregnant friend and she REALLY enjoyed it.
