She loves pugs being creative, this is a perfect match great to get a kid off electronics once in a while!!! The pictures inside are cute and actually include pugs in the designs in really cool, different ways. I know this will be a hit with our daughter ( I might have to steal a few pages too haha) !!! :)4 of 4 people found the following review helpful. Must- have for pug lovers and coloring fans!By MarisaReadsI purchased the pad coloring book as a gift for a friend who is just starting out with coloring. Wow, the reception was great! Hi – quality paper, perfect for colored pencils. I think you could even use pens that don't bleed overly much. The designs are great- popular mandala style with pugs incorporated in each design. Now I am buying one for myself.

Have fun coloring! 2 of 2 people found the following review helpful. Cute coloring book By Marissa Purchased this coloring book as a gift for my sister who is a pug lover. She loved it! The mandalas themselves aren't as detailed and don't fill up the page as much as some other adult coloring books do but it's still a nice book. There is also inspirational quotes throughout the book which I thought was a nice touch.

Each of the designs were created for pug people and pet lovers to focus on coloring to relieve stress, increase the positive energy in their lives, and have fun in the process! Lauren Darr has been plumb pug crazy since childhood. She immerses herself in creating through writing and art. Lauren has found that including creative habits in life is beneficial to health while feeding the soul. Advantages of coloring: Many promising studies have been conducted on art therapy. For those who are less inclined to create art as therapy and wanting a simpler solution, they are using coloring books to enrich their lives. Physicians and therapists prescribe coloring for many different illnesses including depression, PTSD, dementia, and even cancer patients to reduce their pain and stress levels in treatment. Everyday, people are also looking for natural and joyful ways to lessen pain and reduce the tension in their lives. By coloring, the mind focuses. This, in turn, allows the brain to replace mind chatter and negative thoughts with positive thoughts. There are many benefits to having a coloring book routine, which include:

- Achieve a meditation state of mind. The alpha brain waves are present when the mind is sleeping or in a deep zen-like meditative state. When a person is coloring, the brain can get into this soothing, restorative mode.
- Assuage stress, worry, and fears. This happens in the amygdala portion of the brain where emotions and motivation are integrated. The amygdala gets calmed during the coloring process.
- Improve fine motor skills. This happens through the repetition of coloring and focusing on a task using your hands to stay within a finite area.
- Increase creativity. Coloring unlocks the right side of the brain and keeps it stimulated, allowing for more creative thoughts and solutions. This also leads to increased productivity.
- Relax, gain clarity, and focus. People can also reduce their blood pressure while coloring.
