I am not a Dr... so that maybe the problem.By LADYBUGGSI bought this thinking I would give this to my doctor, I have read it and do not find it funny, then again I am not a doctor. I will give it to him and if he thinks it is good I will report back, with an update.1 of 1 people found the following review helpful. Finally Medical SatireBy A CustomerFor those of you that want more than just quick one-liner quotes and medical jokes, Q Fever! is for you. I have been a fan of this website for several years and now they have their best humor and satire articles all in one nice-sized book. It fits in your pocket just like the Wash Manual. I bought copies for all of my co-resident friends. If you are in healthcare or have ever been to the doctor, you'll love Q Fever!2 of 2 people found the following review helpful. Awesome!By A CustomerThis book is awesome! I'm a third year medical student and have been following Qfever for the past couple of years. They used to have a lot of issues but now it's like three or four a year. Sigh. The book keeps me company during those long nights on Surgery. I also gave it

as a gift to some friends and they love it! Crazy stuff. Get it!
