I am not a Dr.... so that maybe the problem.By LADYBUGGSI bought this thinking I would give this to my doctor, I have read it and do not find it funny, then again I am not a doctor. I will give it to him and if he thinks it is good I will report back, with an update.1 of 1 people found the following review helpful. Finally Medical SatireBy A CustomerFor those of you that want more than just quick one-

liner quotes and medical jokes, Q Fever! is for you. I have been a fan of this website for several years and now they have their best humor and satire articles all in one nice-sized book. It fits in your pocket just like the Wash Manual. I bought copies for all of my co-resident friends. If you are in healthcare or have ever been to the doctor, you'll love Q Fever! 2 of 2 people found the following review helpful. Awesome! By A Customer This book is awesome! I'm a third year medical student and have been following Qfever for the past couple of years. They used to have a lot of issues but now it's like three or four a year. Sigh. The book keeps me company during those long nights on Surgery. I also gave it as a gift to some friends and they love it! Crazy stuff. Get it!

Q Fever! is the world's most popular medical humor and satire website, with a unique, original, and savagely humorous perspective on the people and events affecting the healthcare community. Now, for the first time, the best headlines, articles, and features from the Q Fever! website are available in convenient paperback format - perfect for quick access during rounds, or for setting a nice, hot cup of coffee on top of! There's something in it for everyone - doctors, nurses, students, allied health caregivers ... even laypeople fraudulently representing themselves as healthcare providers. In short, it's just what the doctor ordered! (Prior authorization required by most insurance plans.) "Hilarious! Excellent resource for those who are the counterweight of normalcy!!" - Carl Elbing, Nurstoon "Readers who fondly remember the kind of humour usually confined to medical students' drunken reviews will enjoy the website ..." - British Medical Journal [BMJ 24 Feb 2001, 322:500] "Confirming a diagnosis of Q Fever requires serologic testing" - Centers For Disease Control
