Makes for the perfect gift for any mom- whether she is laid-back or a bit obsessive. Pokes a very fun/cute amount of fun at today's culture of parenting. It is an absolute hit as a gift. Laughed out loud multiple times when reading it upon receiving!! 0 of 0 people found the following review helpful. Too cute! By ProudfulWiccan This book CRACKS me up. This could easily be read to a kid as an alphabet book but this is mostly for parents. It would be a great book to keep on the coffee table to give fellow parents a few laughs. I love the artwork. Very basic but cute! I love that it seems to have a little for each parent. The only reason I have it less than 5 stars is the price. I luckily got this book super cheap (less than a dollar) at Hastings out of business sale. I would never pay \$12 for it. If you can get it cheap though it is an adorable book to have or to give as a gift for a mom at any stage.

A is for Apple, B is for Bear, C is for Cat . . . Z is for zzzzzz. This is 2014, and your ABC book, no matter how charming, just doesn't reflect the busy lives of today's toddlers. Far more useful, then, to learn that A is for Allergy, B is for Babyccino, and C is for Controlled Crying. All the pain and joy of modern parenting is packed into this

beautifully designed, very funny little book. Perfect for new parents, old parents, and anyone who has recently spoken to a childrearing consultant, *Q Is for Quinoa* is the ideal impulse buy and an unbeatable stocking stuffer. From Active Birthing to Zumba, *Q Is for Quinoa* is a refreshingly honest read for sleep-deprived parents everywhere. Happy Quinoaing!

"Here at Motherlode, we've fallen — hard — for "Q is for Quinoa, A Modern Parent's ABC." From "A App" to "Z Zumba" it's an alphabet that encapsulates a certain 21st-century parent experience, and the illustrations perfectly capture every age from "B Babiators" to "U Unreasonable" to "D Drama." —The Motherlode Blog
