I've bought all four books, and this author is amazing! If you are a creative type who loves adult coloring books, but also enjoys using your left brain for mind bending puzzles, then this is definitely the right fit for you. It is so much fun to start out with a bunch of random circles and end up with a masterpiece. I've used markers and colored pencils, and both turned out equally good (pictures are attached). I think it strictly comes down to personal preference, and I like to alternate what I use. I will say that I enjoyed the Animals

and Masterpieces books the most because the Cats and Icons books get a little repetitive (cat after cat vs. person after person). I prefer being surprised by my work in progress, and hope that the author makes more books with a greater variety in the future. The perforated pages make it easy to share with others, and everyone I've shown these to has gotten themselves hooked and went on to order their own books. Give it a shot - I promise, you won't be disappointed! HINT: If you are going to use markers, I suggest starting with the lightest color first, and gradually working to the darkest. For instance, color all the 5's, then all the 4's, and so on till you get to all the 1's. This will prevent the darker colors from bleeding and give you crisper lines. I have attached a series of pictures so that you can see the process. 10 of 11 people found the following review helpful. one of my very favorite brand of adult books By Rhonda I LOVE LOVE LOVE these books..do wish they had more books available with less animals and people and more scenery or landmarks would be nice. i love that these allow me to turn my mind off due to you choose just 5 colors..after that its just looking for the number and coloring...very meditative for me. they are a bit complex and small which i also like..i love not having any idea of that it is i am "coloring" until the picture reveals its self enough ...)you can look at the back to see if you would rather know) i love seeing what crazy colors i choose come together in a finished work. these do take a good amount of time as well due to the size and amount of small spaces to fill in i do love the quality of paper and size is large...great books just need more with subject matter! 5 of 5 people found the following review helpful. More Querkles enjoyment, this time with animals. By Joe Peterson I'm a huge fan of Querkles and the more I can get, the better I feel. These do not disappoint at anytime and provide a huge amount of enjoyment spanning hours. Great stuff.

More sensational, quirky coloring puzzles from the best-selling author of the 1000 Dot-to-Dot series, Thomas Pavitte! Reveal 20 animal faces within the circles using pencils, paints, markers, or any coloring medium you choose. These entertaining portraits of whimsical wildlife, beautiful birds, funny frogs, foxes, and more can be removed and displayed when finished. Monochrome or multicolored, the concept is as easy as a child's book, but the results are nothing short of astounding!

About the Author Thomas Pavitte is a graphic designer and experimental artist who often uses simple techniques to create highly complex pieces. He set an unofficial record for the most complex dot-to-dot drawing in 2011 with his version of the Mona Lisa in 6,239 dots. He lives and works in Melbourne, Australia.
