**William Russo : Rajon Rondo the Green Nebula** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rajon Rondo the Green Nebula:

Humorist and Boston Celtics fan Dr. William Russo puts together this collection of funny and poignant essays about the Boston Celtics, based on his long-time popular course at Curry College, 'Great Sports Stories.' Collected from a year of observation, Russo has singled out a number of culprits on the Boston Celtics this season, though originally

intended as a sequel to RAJON RONDO: SUPERSTAR! This work still strips away the grime to reveal the truth under the bubble bath. With wit and literary allusion, Russo examines personalities and issues directly at the center of the legendary Boston Celtics team.
