He delves into the unsuspecting lives of people on Craigslist who believe that everyone they converse with has legitimate intentions. Much like Sasha Baron Cohen's humor, Tony thrives on the awkward discomfort of the situation to get laughs. From this point forward, people will always be cautious when submitting ads through any internet service for fear of who may be answering them. Truly a unique and new wave humorist, Tony should keep his reading audiences busy doubling over for years and years to come.0 of 0 people found the following review helpful. Super Awesome Table ReaderBy ZurizipThis is a perfect book for your bathroom stool or living room desk. Ok, I know that sounds like it's kind of meh, but the short, hilarious, exchanges lend themselves really well to those places. The book is well laid out and very funny. I especially loved the one about the boat, and the light saber one. Some people played right along and others just didn't seem to be able to believe what was going on. Great book!0 of 1 people found the following review helpful. Only read if you like to laugh...By PuddinRandy Penny: Cordially F@*#ing With PeopleTony Endelman is brilliant. I love his creative way of messing with people. It's harmless humor that makes me giggle. It's a perfect coffee table book, even better in the bathroom or on the night stand if you want a laugh before going to bed. It's fun to read over and over again. My hairdresser keeps one in the waiting area and I always hear unexpected laughter when I am getting my hair done. I will

be purchasing several for holiday gifts. Highly recommend!

When Tony Endelman gets bored, he tends to cause trouble. On the internet, at least he can do so under a different name. Randy Penny: Cordially F*#@ing With People Vol. 1 is the first collection of hilariously wacky and all too real email exchanges between Endelman's alter ego and people that, among other things, use the internet to sell worthless crap. The book, which is sure to make you laugh from first page to last, contains nearly 40 conversations, full-color doodles, and hardly any vulgarities.

From the Back Cover "In the grand tradition of the Lazlo Letters and Letters from a Nut comes the next generation of mess-with-their-heads correspondence, Randy Penny. This stuff is Laugh Out Loud Funny from beginning to end. No cursing, no yelling - all of it hilarious. If you don't think this book is funny - kill yourself." - Nick Griffin, Comedian
