Luke Ruggenberg : Twenty Reasons Not To Garden (And Why I Ignore Them All) before purchasing it in order to gage whether or not it would be worth my time, and all praised Twenty Reasons Not To Garden (And Why I Ignore Them All):

0 of 0 people found the following review helpful. Funny whether you garden or not!By Iceberg VI have to say this was an easy read that had me laughing out loud often enough that I had to explain or read passages to my husband. Sometimes I was laughing so hard that he couldn't understand me. I am not a gardener and this book hit on every point

as to why I am not. It also hit a few points on how I get sucked into trying to garden if I don't overcome that feeling in the early spring. I especially loved the chapter on pick up trucks, Chapter #4: Pop the Trunk, well worth the read. If you don't find yourself laughing or at least smiling a lot, you probably have never tried gardening. 1 of 1 people found the following review helpful. I love the humor of this writing. By Veronica I love the humor of this writing, which is so unique for its genre. And the short chapters make it easy to pick up and enjoy at intervals. I'm not a gardener per say, but I enjoy plants, gardens, and working around the yard from time to time. This book brings typically dry garden writing to life, and makes it relatable for the average person. 0 of 0 people found the following review helpful. Fun and well written. By Tim Twenty reasons not to garden will make you laugh and start planting. Fun and well written.

A funny gardening book? It is possible! Too many innocent souls have stepped on the poorly-placed rake that is Gardening. If you picked up this book, chances are it's already too late for you. But if you haven't yet been smacked in the face, put down the trowel, take off the vest, and join horticulture commiserist Luke Ruggenberg as he ticks off twenty hilarious reasons to get out of the garden while you still can. In this collection of garden humor you can suffer the existential angst of the perfect pruners, hop in a limo as paparazzi hound the celebrity gardener, try your best to "Name ... That ... Plant!", endure a slapstick visitation from the dreaded Green Reaper, or take a trip to the gardeners-only Emergency Room. Discover just how bad an idea playing with plants really is ... and why one man does it anyway.

"I devoured this wonderful book in one night. It was so strange and true and different from anything I've read lately, it was impossible to put down. I absolutely loved Luke Ruggenberg's "voice" and his wry sense of humor. Even ordinary things had great spunk and the author's personality shines through, like a good friend is talking to me and I just want to keep listening." -Indie Book ers
