All kinds of information in it!1 of 2 people found the following review helpful. Funny but---By Roger FarnhamI enjoyed the book a lot but, if you are a grammarian or an editor at heart, it will drive you crazy. I have never seen a book with so many spelling errors, formatting mistakes and

grammatical goofs in my life. Nothing serious and they do not detract from the fun, but they get irritating after awhile. Worth the read though.

How does Al Capone relate to the first Fighter Ace of WWII? You will learn it here. Real stories, fun facts, the bizarre, the shocking, interesting stories, letters, strange facts, and much more! Special sections are included including amazing facts about Harry Potter, vampires, the solar system, and much more. This is a must for every bathroom.
