Not like a short book but the big book shrunk down into a very small size, think, it will fit in your pocket, kind of tiny. If you are young this will be a great book for you, but if you are over 40 you will need a very bright light and your cheaters to read it. The book itself is very funny (we have the full size version; this one was bought as a gift) So you will get a lot of laughs if you squint really hard. LOL So yea, good book, funny book, very tiny book0 of 0 people found the following review helpful. My MUST HAVE reading for the throne roomBy Astrovell love the Bathroom readers.
