I purchased the California book as I am interested in my home state (especially since I no longer live there) and found it to be fun and informative. I give all of Uncle John's books 5 stars - always worth the purchase - especially at prices.0 of 0 people found the following review helpful. Can't get enoughBy Jeff Wendy SI love all the Uncle John's series and have a whole bookshelf full of them. The Hollywood, TV, and History books are my favorites, with the California book being a close second. Very entertaining. If you've read any of these books, no further explanation is needed. If you haven't - they give you hundreds of pages a entertaining stories, usually ranging from 1 page to 4 pages in length. There are no pictures, but that does not detract from the fun, quick articles.1 of 1 people found the following review helpful. good read...By Murray GodwinLot of interesting things in this one.
