About this is a stocking stuff for for my little brother and he actually read it cover to cover. This is no easy feat for teenager and as long as he's reading I'm happy. Plus he now walks around quoting funny lines and facts from this book which is a major step up from every day teenage lingo. Great buy would highly recommend

Gave this to my father, who has dementia. He really enjoyed the stories and complained the book was too short. A superlative choice for an intellect who needs a light read.

By Steven B.  
I normally LOVE the Bathroom Readers' Institute's line of books, but this one seemed to be a little.... to dull. It certainly delivers on all the info it tells you it has between the covers, but, it's just lacking anything that keeps it fun or exciting. It's good info to have if you are ever caught in a wild situation, but the book was a little too serious for what I was expecting.

For more than 25 years, Uncle John's Bathroom Reader has helped readers learn amazing things. Now, Uncle John shows you how to do things you didn't know how to do . . . and probably should never, never, never actually do, unless you're in a survival situation and really, really, really need to. Uncle John's How to Fight a Bear and Win is a new approach to survival guides and how-to books. This book provides step-by-step instructions for how to make-do in any rugged terrain. But if you're expecting "how to start a fire," think again. This isn't the kind of book that tells you how to make a fire by rubbing two sticks together — it tells you how to make a fire using a car battery. It also tells you:  
• How to swing from a vine like Tarzan  
• How to land an airplane in an emergency  
• How to fight a bear . . . and win  
• How to perform emergency surgery in the woods  
• How to identify what insects you can — and cannot — eat  
And lots, lots more.
