P.J. Fox : Under The Sea: An Adventure Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Under The Sea: An Adventure Coloring Book:

Welcome to the Magical World of the Sea! Within these pages, an adventure awaits: one filled with all manner of creatures of the sea, along with their surroundings. Each coral formation, each fish hiding within, each starfish and shark and dolphin appears one after the other in gorgeously rendered pen and ink—and they're all waiting for you, the colorist, to bring them to life. Twenty-four individual plates, each one a painstakingly detailed miniature world unto itself, promise to provide hours of exploration. For colorists, and adventurers, of all ages.
